

TAKAFUMI IDE

"Life is fleeting; therefore, life is beautiful."

takafumi.ide@gmail.com | <https://takafumiide.com>

SUMMARY

Based in New York, Takafumi Ide is an interdisciplinary media artist whose practice encompasses **immersive sound and light installations, outdoor sculptures, and delicate works on paper**. Exploring the "brilliance of ephemeral life," his work often establishes a **poetic dialogue between specific sites and sensory memories**, such as his recent environmental projects for the Nakanojo Biennale. By blending Japanese aesthetics with contemporary technology, Ide seeks to illuminate the resilient strength within human fragility and evoke a profound awareness of the dignity of life.

TECHNICAL PROFILE

- **Interdisciplinary Fabrication:** Expert in custom circuit design and sensor integration (Arduino/Pd/Max) alongside traditional craftsmanship. Specialized in blending electronic components with organic materials like bamboo and washi paper.
- **Works on Paper:** Skilled in fine art drawing, watercolor experimentation, and monoprinting, often utilizing these mediums to explore the visual translation of sound and time.
- **Sound Engineering:** Advanced implementation of spatial audio design (e.g., 8-channel surround systems) and interactive signal processing.

curriculum vitae

Education

- 2007 M.F.A. Studio Art (media and sound installation), Stony Brook University (The State University of New York)
- 1991 Silkscreen Print Certificated by The Machida City Museum of Graphic Arts, Tokyo, Japan
- 1989 Typography Parsons The New School for Design, NY (studied under Alexa Nosal)
- 1989 B.A. Graphic Design Tama Art University, Tokyo, Japan
